

NJ State Assemblyman In Question

Elder Abuse and Misuse of Position of Public Trust Alleged

Morristown, Mar 15, 2019 (IssueWire.com) - Anthony M. Bucco misused his office

The family and heirs of Leokadia Jensen assert: Sitting NJ Assemblymen acting as family Attorney, executes the **unsigned** Will of wealthy, recently deceased, handicapped women (blind & deaf). The execution of such Will clearly benefited the Assemblyman/attorney and **disregarded the wishes of the deceased**, the family assets.

The family of Leokadia Jensen is left to wonder. Can a sitting NJ Assemblyman use the power of his office and the "bully pulpit" of State Government to be "Above the Law"? Where has the public trust gone?

A prominent Morris County, NJ State Assemblyman working in his legal practice authorizes the sale of real-estate allegedly on behalf of his handicapped client. The proceeds earmarked for the family are delayed more than two months post-sale. All the while, in what appears to be "quick flip" the properties are RESOLD with days netting 5 figure profit for the Attorney and or his company/partners. It could be a pattern with far-reaching implications.

Here are the details of this unbelievable transaction.

The Victim: [Leokadia \(Leo\) Jensen](#) of Norwich CT, passed on January 17, 2016

The attorney & NJ Assemblyman: [Anthony M. Bucco](#)

Dates and town of the Real-estate transaction(s):

Lavalette, May 2014

Morristown Sept 2014

The attorney who filed an Ethics complaint against Mr Bucco: [Robert J. Stack of Kinnelon](#)

Today, Mr Bucco with seemingly limitless resources hides behind an army of high-priced lawyers; their briefs, rebuttals, diversions, and obfuscation. All while the family of Ms Jensen waits, hopes and prays for justice.
