

## Orthobiologics Market Industry Report By 2030: Top Players - Stryker Corporation, Genzyme

**Pune, Feb 12, 2019 (Issuewire.com)** - Market Industry Reports (MIR) has published a new report titled "Orthobiologics Market - Global Industry Analysis, Size, Share, Growth, Trends, and Forecast, 2019–2030." According to the report, the global orthobiologics market was valued at over US\$ 5.5 Bn. in 2017 and is expected to grow at a considerable CAGR during the forecasted period.

The Study On key vendors in this Global Orthobiologics Market includes is Medtronic, Stryker Corporation, Smith & Nephew plc, Genzyme and DePuy Synthes, Inc.

**Download free PDF sample of the report from the official link- <https://www.marketindustryreports.com/pdf/2>**

Global Orthobiologics Market is expected to strongly dominate the global economy with a substantial growth rate in upcoming years.

The growth of this market can be attributed to factors such as increase in sports injuries and road accidents, awareness among patients & athletes, a rise in obesity rate, and continuously ageing

population. According to the World Health Organization, 2017, fatal road accidents are the second primary cause of fractures and accidental injury worldwide with almost 646000 individuals die every year around the world.

### **Rising R&D investment to widen the base for growth**

Collaborations and rising R&D investments by the prominent biotechnology and medical device companies are leading to the introduction of advanced orthobiologics which is expected to widen the base for growth of the orthobiologics. For instance, Bone Biologics Corp., is in development stages of its ortho-biological product bone growth stimulator Nell-1, in collaboration (2015) with the University of California. This subsequent increase in R&D efforts led to the development of a series of pipeline products that are projected to provide the vertical with profitable growth opportunities in the future.

This report provides an in-depth study of "Orthobiologics Market" using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The Orthobiologics Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

### **Increasing hip and knee replacement surgeries**

Osteoarthritis is one of the most disabling diseases majorly in developed countries. Substantial advances in treatment and surgical methods have provided effective options to decrease the disability and pain associated with some of the musculoskeletal conditions. Hip and knee joint replacement surgery is considered as the most effective intervention for the severe form of osteoarthritis and fractures, reducing disability and pain, also restoring some patients to normal function. According to the data published by the OECD Health Statistics, in 2017, the hip replacement rate is increased by 30% between 2000 and 2015 while the rate of knee replacement doubled.

### **Lack of reimbursement to hinder the market growth**

Regulatory directives for treatment of hip replacement and knee surgery and lack of reimbursement policies are expected to delay growth in the orthobiologics market. However, the market offers profit-making prospects, especially in the developed regions where the incidence of arthritis and obesity is particularly high. Demand for the minimally invasive procedures is witnessed to grow due to the rise of various diseases and bone disorders.

### **Key players are focusing on new product development as the major market strategy**

The companies are extensively integrating new product development activities, distribution

enhancement strategies, collaborations, mergers & acquisitions and frequent product approval. For instance, in 2016, NuVasive Inc. launched AttraX Putty, its next-generation biologics technology. It is an artificial bone graft, specified in posterolateral spinal surgery, as autograft extender. The product launch was approved to gain a competitive advantage and also to expand the product portfolio to differentiate from the other market players.

### **Key Point of Table of Contents:**

#### 11 COMPANY PROFILES

**(Business Overview, Products/Services Offered, Financial Performance, R&D Intensity, Marketing & Sales Intensity, Recent Developments, Analyst Corner)\***

##### 11.1 Depuy Synthes

##### 11.2 Sanofi

##### 11.3 Stryker

##### 11.4 Medtronic

##### 11.5 Zimmer Biomet Holdings, Inc.

##### 11.6 Arthrex, Inc.

##### 11.7 NuVasive

##### 11.8 MTF

##### 11.9 Bioventus

##### 11.10 Seikagaku

### **The report holds answers to important questions**

1. What will the local and international competition for vendors operating in the Orthobiologics Market look like during the forecast period, 2019 to 2030?
2. What impact will innovative technology and product substitutes have on the use of a service and product?
3. What are the trade barriers in the Orthobiologics Market?
4. What are the important catalysts that will shape the preference of the customers during the forecast period, 2019 to 2030?
5. What will be the expected ROI (return on investment)? How much profit will the Orthobiologics Market players make?
6. Which distribution trends and developments will continue to dominate the Orthobiologics Market in the coming years?

## About Us

Market Industry Reports is a global leader in market measurement & advisory services, Market Industry Reports is at the forefront of innovation to address the worldwide industry trends and opportunities. We identified the calibre of market dynamics & hence we excel in the areas of innovation and optimization, integrity, curiosity, customer and brand experience, and strategic business intelligence through our research.

We offer our clients a unique depth of market intelligence in an actionable format to move their business forward. Our analysis incorporates the consumer study in more than 100 countries that provide a tactical approach to drive the sustained growth for the business. We continue to pioneer the state-of-the-art approach in research & analysis that makes a complex world simpler to stay ahead of the curve. By nurturing the perception of genius and optimized market intelligence we bring proficient contingency to our clients in the evolving world of technologies, megatrends and industry convergence. We empower and inspire Vanguards to fuel and shape their business to build and grow world-class consumer products.
