About St. Martins

St. Martin's Animal Foundation was founded by Sky Valencia in 1999. Since that time, SMAF has developed and implemented successful children's outreach programs through school assemblies and interactive activities. SMAF has rescued thousands of animals, placing them into loving homes or providing them with a safe and happy retirement. We have put tremendous effort into spaying/neutering programs and anti-dogfighting campaigns, as well as pet care education and safety practices.
