Get to know Registered Nurse Linda Dei-Baning, who serves patients within Baptist Medical Center.

New York, Feb 22, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Linda currently practices as a Registered Nurse with Baptist Medical Center where she holds expertise in Neurology and Psychiatry.

Linda received her certification as a Licensed Practical Nurse from Nassau BOCES in 1998, giving her over two decades of experience in her field. Wanting to further her education she then graduated with her Nursing Degree and as a certified Registered Nurse from the Helene Fuld College of Nursing in 2006. She holds additional certification in Basic Life Support and Advanced Cardiac Life Support.

Linda chose the field of nursing as she wanted to be able to provide assistance to people. She attributes her professional success to her personality, communication skills, taking care of people and her love of psychiatry. When not working she enjoys attending concerts, listening to music, dancing, and going to plays.

The main role of a registered nurse is to assist physicians in providing treatment to patients suffering from various medical conditions. While their primary responsibilities will involve caring for patients, their specific job duties will vary depending on your employer and specialization. While a majority of

registered nurses work at hospitals they are not limited to that setting, they can also work in clinics, schools assisted living facilities, homes, schools and more. They must also stay up-to-date with new tools and technology to help provide the best care to patients and families, and the best support to doctors and other healthcare professionals. Registered nurses must possess excellent communication, emotional intelligence, teamwork, problem-solving and critical-thinking skills.
