Medical Universities abroad

New Delhi, Feb 19, 2019 (IssueWire.com) - Russia is most sought after education destination especially for medical students because of great teaching pattern and infrastructure. MBBS in Russia is a constant pull as it has a strong vertical in the education field. Studying in MBBS has become increasingly popular. Some of the Russian medical universities find their position among the world's top 30 best medical universities and that's the reason students from 170 countries across the world get admissions into Russian medical universities. Russia has become an education hub especially for medicines for international students. Approx. 15 medical universities in Russia offer medical education in English medium. [MBBS in Russia](#) for Indian students is a constant trait as it is easy to learn medicine in English and get mixed up with students cross the world and get wider exposure.

Great education, customized attention, good comprehensive medical curriculum, and easy admission procedure is the attraction of [medical course in Russia](#). Getting admissions without any entrance tests or donation is another plus point in Russian medical universities. Only you have to pay for your tuition fees, which is very reasonable and easily affordable. They maintain students faculty ratio (15:2) as per WHO

(2019) norms. Also, Russian medical education is approved and recognized by various International medical education councils. Unlike another international medical education system, that lasts medical course in 7-8 years, Russian medical course lasts for 5.8 years that includes 1 year of internship also.

Medical education cost is slashed by 60-70% in Russia is compared to western countries. Basically, the popularity has grown immensely just because of the high standard of education, low fees and a moderate standard of living in Russia. Since last two decades, we have seen a surge in international students joining medical colleges in Russia. Students passed from Russian medical colleges find it easy to pass the screening

test. Medical colleges in Russia prepare their students in such way that they get through it easily. The Russian medical universities keep themselves up-to-date with the Indian medical syllabus that makes it easy to face the screening tests in India.

Students get lots of hands-on experience in the clinical field in Russia, that is one of the reason Indian aspirants get attracted to medical colleges in Russia. Moreover, Russia is the safest place for Indian students. Since the last decade more girls aspirant are attracted to get [MBBS admission in Russia](#) than boys.

Indian medical aspirants are not asked to undergo one year preparatory course like they do in western countries and start the main medical course. The Russian language will be taught during the initial three years long with main medic subjects because it is necessary for students to interact with local patients during clinical internships or even after completion of three years. Primarily, Russian medical colleges are well

recognized by WHO, GMC and MCI, this facility has opened gates for Indian medical aspirants to study MBBS in Russia. Thousands of Medical students who have passed from Russian medical colleges' have become successful doctors and practicing in India. Medical students passed from Russian Medical universities are listed within the World Health Organization (WHO) , students passed from there are eligible for the medical council of India (MCI) screening test.
