

## Sons of New York Album Release - American Dream

Magic Hour is the first single

Los Angeles, Feb 6, 2019 ([IssueWire.com](http://www.IssueWire.com)) - *Magic Hour* is the first single from the album *American Dream*.

*Magic Hour* - "If you can refer to a song as farm to table, not in the sense of the instrumentation or the recording process, but just from the standpoint of simple, organic and honest songwriting, then *Magic Hour* is the most organic song I've ever written. For many months after I wrote it, I would feel the urge

*to sit at the piano and sing it. It made me feel better when I did. To me, there's something timeless and emotionally recognizable about this song - something about the refuge of home and the love for those with whom you share it." Roger Campo*

*"A beautiful love song from a beautifully classic arrangement. Kudos."*

The album was produced by Bill Lefler, who has produced Ingrid Michaelson, Cary Brothers, Matthew Mayfield, and Peter Katz, to name a few. The entire album was recorded at Lefler's Los Angeles studio, utilizing some of L.A.'s most talented musicians, including Philip Krohnengold (piano and organ) and Daniel Rhine (bass) from Sara Bareilles' Band and Dave Eggar on strings (that cello solo at the beginning of Coldplay's *Viva La Vida* is Dave).
