

Study and Go Abroad Fairs Open up a World of Possibilities for Students

Vancouver (February 28) - Montreal (March 2) - Toronto (March 3)

Vancouver, Feb 19, 2019 (Issuewire.com) - Universities, graduate schools and professional schools from around the world, many of them ranked in the world's Top 100, will participate in the Study and Go Abroad Fairs in Vancouver (February 28), Montreal (March 2) and Toronto (March 3), to meet with students who are looking to take an undergraduate or postgraduate degree or certificate program abroad.

"The Study and Go Abroad Fairs are exciting events as they showcase a whole range of short-term and long-term study opportunities in many different fields and countries; Australia, UK, USA, Caribbean, Hungary, Italy, Denmark to name a few", says Katie Idle, organizer of the event. "At the expos, we welcome students looking for post-secondary options, and their parents, educators and young professionals looking to retrain".

Idle mentions that the [Study and Go Abroad](#) expo also features a Travel Zone, with gap year and other student travel options; work abroad, internships, language travel, as well as free seminars during the day.

"Studying abroad is an investment in the future, looks great on a resume and is a differentiator in an increasingly competitive labour market. As well, universities abroad sometimes offer shorter programs – three-year undergraduate degrees and one-year Master's - greater program choice and more availability in fields such as Medicine, Law, and Pharmacy", Idle adds.

"The best thing about the expos is that they are totally free of charge. Information on exhibitors, scholarships, and seminars can be found on the website www.studyandgoabroad.com."

Additional notes:

[Study and Go Abroad Fairs](#) are Canada's largest international university fairs, aimed at students and adults who are researching their options for post-secondary studies overseas, as well as opportunities for volunteering, language travel, internships and work abroad programs.
