### It's not Marijuana it's Hemp

A question we are asked frequently by our consumers is what's the difference between marijuana and hemp. In simple terms, one contains high levels of THC and can produce a euphoric high. Hemp is just the opposite, being typically high in CBD and low in THC, meaning it's not going to get anybody stoned and is great for the medicinal purpose. Bi'Ja Thatch, a full-time student and frequent buyer with The Hemp Source because of chronic pain noted "When [she's] in the most pain and [her] pharmaceutical drugs aren't working hemp from the hemp source is [her] saving grace", using the pain salve daily as topical for hip replacement pain.

Our hemp availability is update driven by customer feedback and is apart The Hemp Source's Our hemp availability to provide an alternative, natural way of healing without using industrialized pharmaceuticals. Whether its hemp flower, CBD gummies or our Women of Sativa(WOS) full spectrum cannabidiol tinctures, The Hemp Source is the perfect place to find an alternative for pain.
