

## The Matr1x Of Entertainment –Vegas’s one-stop shop for your next VIP experience

**Los Angeles, Feb 27, 2019 ([Issuewire.com](http://Issuewire.com))** - Owners of Life Support Media Group, Verse Spencer aka Verse the Legend (Singer, lyricist and saxophone player) and Joe Meyers aka “Space Owl” (Composer of Matr1x music) popularly known as the music group Matr1x, both had a vision of creating a “Matr1x of Entertainment” known as, Intimate Celebrity Tours, in the heart of Vegas due to the many relationships they held within their network and professional spectrum. Late last September, they finalized a partnership between Tremayne Stevenson, owner of Talent Pound Productions (An entity of D.P.G) together aiming at being a complete full-service solution to anyone looking to experience Vegas from the true perspective of a VIP.

Whether you’re a musician, aspiring or professional model, entrepreneur or simply a tourist ready to enjoy a well-deserved getaway in the heart of “Sin City”, the two company’s services combined offer a “Matr1x of Entertainment” leaving everyone who takes part in the experience in pure bliss.

Immediately upon arrival, one can expect a tour throughout the headquarters which entails a state-of-the-art recording studio, separate warehouse with a green-screen for video/photo shoots with a stage for performing. Following the tour, a consultation will take place regarding the client’s main interest in the visit.

Each service offered will be customized based on the client’s interest as a musician, aspiring model or entrepreneur through developmental services and training. For tourists, discounts will be offered towards recreational adventures, jet/helicopter charters, theatre and concert tickets, etc. with full VIP access to the most exclusive events and experiences at MGM properties in Vegas.

If the Matr1x of Entertainment-VIP Experience is exactly what it claims to be ... this might truly be the next best thing to Sin City!
