

The Soul, Rajarhat: Your Home with a Conscience

kolkata, Feb 11, 2019 (Issuewire.com) - Our demanding lives deserve not just a nice house to come back to, but a home with a soul. At The Soul, Rajarhat, you will come back to a home with consciousness, a home that imbues its residents with hope, health, and positivity. A home that speaks to your soul.

Spread across 6.89 acre, [The Soul](#), developed by PS Group and Primarc, will take you back to nature, with 60% open spaces, large green zones, and a natural waterbody. The three Ss that embody The Soul, Rajarhat, is *Smart*, *Spirited* and *Spiritual* — integrating technology with sustainability and building urban communities with higher human values.

Located just 10 minutes from the Biswa Bangla Gate and comprising 10 towers with G-16 floors, the architecture of The Soul respects the natural resources in and around the property, acknowledging that daylight, sunlight, ventilation and even the view from one's window can work wonders for mind, body, and spirit. Large windows in every flat ensure that residents receive not just daylight but sunlight, which has proven health benefits.

Here you can book 2, 3 & 4 BHK air-conditioned homes, built with construction technology that promises resilience and durability. Safety has been of vital importance while planning the layout of the campus, with traffic paths laid out in a manner that ensures many safe zones, such as secluded play areas and a skylink for toddlers and senior citizens. In fact, the design has made provisions for various nooks to help residents bond better.

The plush in-house club offers activities across age groups, including three specialty swimming pools, nature trails, orchards, and multiple community halls, making sure that life at The Soul is an eternal staycation. Its scenic beauty and natural elements serve to make The Soul the only one of its kind geared towards a lifetime of sustainable development. For more visit www.thesoulrajarhat.com
