Seven23 Album Release

Seattle, Feb 2, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Two years after being signed to PimpOn. Ent., RMM in collaboration with Snoop Doggs 'Tha Return of Doggystyle' Records, Thaartist Kali is finally about to release his personal project "**Seven23**."

In 2017 after being signed to a distribution deal, Thaartist Kali hosted his 1st show with several other PimpOn. Ent. artist including the artist, *Lil Nate Dogg!*

The anticipated album '*The Streets is Cold*' was never released due to unforeseen circumstances; and after releasing four singles and two videos with the label, Thaartist Kali started 2018 as an independent artist.

Performing across Washington State, Thaartist has made a name for himself as a rap artist and entertainer, getting his first opening role in the movie *The Alliance*, directed by Robert L. Butler Jr.

Along with being in the movie, Thaartist Kali has written and composed five songs for that movie and has composed a 13 song soundtrack for a comic book turned video game by the name of "*Shatter*" published by 1st Publication comics & written by Peter Gillis.

In the midst of the shows in 2018, Thaartist Kali shared the stage with the Luniz and killed the show. Later performing on a show with Mo Thugs that ultimately lead to an invite to perform on a Krazy Bone show.

The Krazy Bone concert was canceled that night, but Thaartist Kali was in an incident outside the entrance with one of the clubs bouncers.

The incident outside the club seemed to pick up momentum for the artist because the media had Thaartist Kali in for interviews soon after.

If you haven't caught the artist on 104.9 FM All City Sounds or 91.7 FM on Thursdays Hip-hop hour with DJ Defkwan, trust you don't wanna miss the album!

The Album **Seven23** will be available for streaming in digital stores March 20, 2019.
