UNKNOWN Drops New Single showing his soul Shortly After his first EP release!

Sioux Falls, Mar 8, 2019 (Issuewire.com) - New artist UNKNOWN, having potential released a track "Akuji Take Over" after his EP release Reality Check! UNKNOWN said,

" I'm just a man doing what he loves at 19 years old. Sure life might throw us curve balls, but at the end of the day. All I really have is my beautiful girl by my side, and my music. I could go on all day about what I can and can't do better, but I'll say this. With enough support, product GETS better, and I have

thousands of stories to tell with a message if people can find 'em. "

UNKNOWN plans to be connecting with DBM in some way here soon, no future release dates are official as of yet, but with that being said these next tracks posted could just be the turning point of something great. Sure things that are different are hard to like right away, but once you try something enough, add more flavor, and acquire the taste. People tend to be bound to like it eventually, especially when adding new ingredients! That is what's happening here! So travel through the UNKNOWN & Check The Links Below!
