

CareerOrbits announces new preparation courses for NEET UG aspirants

CareerOrbits has launched new online NEET UG preparation courses for students studying from home

New Delhi, Mar 8, 2019 ([IssueWire.com](http://www.issuewire.com)) - New courses are now available at CareerOrbits for NEET 2020 and 2012 aspirants. These courses are prepared for students who are currently in class 11 and class 12 and are preparing to appear for NEET UG examinations. The students preparing NEET will now be able to prepare for the exam from anywhere in the world. The students will appreciate the instant doubt clearance and the interactive study notes which will give them an edge over the other students preparing for NEET UG.

“The courses are developed to ensure that the students who opt for these courses can become an expert in the topics covered in NEET UG syllabus by repeated practice and instantly clearing their doubts”, said Ravi Kant Gupta, Co-founder of CareerOrbits.

CareerOrbits gives students online access to over thousands of questions specifically prepared for NEET UG with detailed step-by-step solutions. These step-by-step solutions will be available for each and every question, a feature that is not yet available with any of the NEET UG preparation providers in India. The NEET UG preparation courses from CareerOrbits generate revision lists based on the accuracy of the students in the practice sessions. These revision lists will be instantly available to the students for re-practice.

“CareerOrbits team works continuously on creating new features and courses for the students”, said Mr. Gupta. “We look forward to preparing more students for the highest score in NEET UG examinations”.
