General dentists provide a wide array of services that are vital to patients' continued health. These services include: preventive services — helping to maintain good oral health by stopping disease before it takes hold in the mouth; restorative services — receiving timely and appropriate treatment when a problem is identified; as well as cosmetic services — performing a range of cosmetic procedures, such as teeth whitening, cosmetic bonding - even porcelain veneers. General dentists also address overall health concerns, as oral health is seen as the mirror of general health. In fact, some dental problems may reflect issues in other parts of the body and vice versa.

Dr. Riggins provides invaluable services to a wide range of patients in the Moline area. He gives his patients top-notch care throughout their day-to-day lives. When Dr. Riggins is not seeing patients, he enjoys spending time with friends and family members, yoga, sprint triathlons, skiing, reading and coaching high school age club soccer.
