powerful growth*

**Buffalo, Mar 13, 2019 ([IssueWire.com](http://www.issuewire.com)) - How to Achieve Success: Innovative Approaches to be Productive and Focused by #1 IT Developer**

“Good Results: Art of efficiency for powerful growth” By Timothy Ivaikin

At the beginning of 2019, after years of leading multiple IT companies, Timothy Ivaikin, a prosperous Harvard-trained IT developer, published a book “Good Results: Art of efficiency for powerful growth” that shows how to efficiently organize your time and achieve goals. He has created a unique methodology based on Getting Things Done technique – a management method that combines the way of approaching professional and personal tasks.

“Have you ever felt that you are ready to give up when things get challenging while others persevere? Do you struggle with unfinished tasks?” - questions Timothy. “Do not worry. You just need to use the right tools.” Ivaikin reveals how to build the ideal schedule. The author innovatively approaches gestalt therapy's idea of unclosed loops to help a reader make the most of his time. By applying such approaches you will develop a life-changing system that works best for getting results.

*Digital and paperback versions of the book are available now on*
