

Jain Laboratory Instruments Makes School Science Experiments Exciting and Fun with Quality Equipment

Ambala, Mar 12, 2019 ([Issuewire.com](http://www.Issuewire.com)) - School or college education is not complete without the practical, hands-on experience of theories and study materials. A leading and global school lab equipment manufacturer is Jain Laboratory Instruments Pvt Ltd, based in Ambala, India. Also known as Jlab, the company has earned a reputation for the unmatched quality and seamless marketing of a wide range of school lab scientific instruments and supplies.

For school science lab supplies India, the name to look for is Jlab, which has a management team comprising scientists and engineers with over 40 years of experience. This makes the school science equipment manufacturer stand out from the competition on a variety of scores, be it quality, marketing, cost or sales support. The school lab inventory of Jlab is complete and includes physics, chemistry, maths and biology lab equipment.

Jain Laboratory Instruments has one of the widest product portfolios for virtually all school and college lab requirements. The products are used across education, healthcare and vocational training. The manufacturing facility of Jlab is spread over 15,000 sq. meters with the latest machine tools.

"It is our mission to supply only the unparalleled quality of products to the customers at the best possible price. It is through our hard work and continuous effort that we have been able to achieve this and we strive to keep our customers happy at all times," said a spokesperson for Jain Laboratory Instruments.

This striving after quality and competitive services has earned Jlab certifications from UNESCO, UNIDO and UNICEF for science and math kits. Apart from school lab equipment, Jlab has also diversified into analytical research equipment, engineering training lab instruments, hospital surgical equipment and veterinary equipment.

Jain Laboratory Instruments offers bulk lab tender supply with special discounts to over 56 countries. The export operations are carried out in special packaging with timely delivery. The support team at Jlab is available 24/7 and inquiries are welcome through the official website. Jlab certifications include ISO 9001, ISO 14001, CE, WHO-GMP, ISO 13485-2003, and Directive 93/42/EEC for Medical Instruments.
