

Jeremy Groll, MD, Reproductive Endocrinologist with SpringCreek Fertility

Get to know Reproductive Endocrinologist Dr. Jeremy Groll, who serves patients in Centerville, Ohio.

New York City, Mar 12, 2019 (Issuewire.com) - Dr Groll is currently the Medical Director and

Managing Partner at SpringCreek Fertility, the only independent, full-service fertility centre between the Dayton Metropolitan area and Toledo Metropolitan area. The center strives to offer evidence-based, patient centered fertility treatments for anyone wanting to continue to build their family. Fertility treatments and preservation are priced for accessibility and tailored to meet family goals.

Dr Groll is on clinical faculty with Southview Hospital Residency and Wright State University Residency. He has served as Medical Director at Kettering Reproductive Medicine, Chief Division of Reproductive Endocrinology and Infertility at 88th Surgical Operations Squadron at Wright-Patterson AFB in Ohio and was an Assistant Professor at Wright State University Boonshoft School of Medicine in Dayton, Ohio.

Dr Groll received his medical degree with honours from the Wayne State University School of Medicine in Detroit, Michigan. He then completed both an internship and residency in Obstetrics and Gynecology with Wilford Hall Medical Center Lackland AFB in Texas, as well as his fellowship training in Reproductive Endocrinology at the University of North Carolina, Chapel Hill.

Dr. Groll is double board-certified in Reproductive Endocrinology/Infertility and Obstetrics and Gynecology. He is a member of the American Society for Reproductive Medicine, a Fellow with the Society for Reproductive Endocrinology, and was an editorial reviewer for Fertility and Sterility. He is also affiliated with several medical centers and hospitals, including Kettering Medical Center in Kettering, Ohio and Miami Valley Hospital in Dayton, Ohio. He

Dr. Groll has been published in several medical journals, including Fertility and Sterility, ASRM Journal, and the Journal of Clinical Endocrinology and Metabolism.

Reproductive endocrinology and infertility (REI) is a surgical subspecialty of obstetrics and gynecology that trains physicians in reproductive medicine addressing hormonal functioning as it pertains to reproduction as well as the issue of infertility. As a Reproductive Endocrinologist, Dr. Groll offers his patients a number of services, including IVF, IUI, egg preservation, ovulation induction, saline sonograms, laparoscopy, and hysteroscopy.

In his spare time, Dr. Groll enjoys spending time with his family, fine dining, art, traveling, barbequing, making ice cream, running, wrestling, and Notre Dame football.
