LEARNING

Rochester, Mar 14, 2019 (Issuewire.com) - *Businesses across the world are witnessing an increasing dependency on data and information flow. A continuous need to seamlessly exchange data*

has led to a renewed focus on IT-networking, telecommunication products, and services across industries. Amongst other IT certification courses, Cisco stands out as one of the most sought-after vendor companies. Let your teams stay up to date with all course offerings through NetCom Learning's list of New Courses on Cisco Portfolio.

NetCom Learning, a leading technical and business training solutions provider, has introduced “**New Courses on Their Cisco Portfolio.**” The details have been made available [online](#). The portfolio now includes 25 new Networking and Data-AI courses from Cisco.

It is an undeniable fact that be it companies or individuals; certification courses provide a competitive and professional edge. They unlock multiple business and career opportunities. Cisco training and certification courses not only help in career enhancement for your employees, but they also make them better prepared for evolving technologies. Cisco certifications validate your skills in networking, which is considered one of the fastest growing IT domains. Industry data also proves that each Cisco certification brings an increase in the IT professional's salary.

Therefore, you could be a professional willing to grab the attention of potential employers, get access to a global community of network professionals or a business manager/owner planning to enhance your teams' IT skills, NetCom Learning's individual and organizational learning options could bring you immense value.
