

RingOver Becomes a HubSpot Connect Partner with a Certified Integration

RingOver takes advantage of HubSpot's Certified Partner Program to achieve highly rated recognition within HubSpot Marketplace offering HubSpot users free calls to the UK and simplified call activity features directly within HubSpot

Who said you have to leave HubSpot to stay close to your clients? Simplify your life with auto-synced call activity, voicemail, click-to-call and much more using the HubSpot and RingOver integration.

London, Mar 20, 2019 (IssueWire.com) - Today, RingOver Group announced that it has joined HubSpot as a Connect Partner with a certified integration. HubSpot, a leading growth platform, works hand-in-hand with Connect partners to help grow their business through co-marketing and business development campaigns to increase shared customers. Connect partners are independent software vendors who have built an integration with HubSpot and passed certification.

RingOver is a collaborative cloud-phone solution designed for customer support, marketing, and sales teams to simplify contact management within HubSpot and boost productivity. The seamless integration helps facilitate timely interactions via automatic ticket and contact creation, call logging, text messages, voicemails, recordings, and one-click calls - directly in the corresponding contact file.

“Our customers want to achieve great results fast, and we’re always looking to provide solutions and tools that will help them do their jobs quickly and streamline operations,” said Brad Coffey, Chief Strategy Officer at HubSpot. “RingOver’s cloud-phone solution is a great option for achieving that efficiency and we’re excited to have them on as part of the Connect Program.”

HubSpot’s Connect Program is an ecosystem of valuable third-party integrations. Certified integrations comply with a set of requirements in addition to hitting set milestones for the amount of installs and

positive reviews from customers to receive the HubSpot stamp of approval.

“Becoming a certified HubSpot partner is a big deal for us. RingOver is designed for flexibility and productivity so it was only fitting that we tapped into HubSpot’s results-driven solution,” said Renaud Charvet, co-founder, and CEO, RingOver Group. “We know that HubSpot only partners with the best and so this accolade raises the bar for RingOver and aligns with our unwavering commitment to delivering excellent and innovative services to all our current and potential clients.”
