

## Sina Meisamy, MD, Diagnostic Radiologist

Get to know Dr. Sina Meisamy, a diagnostic radiologist who serves patients in the Austin area and San Antonio, TX

**New York City, Mar 4, 2019 ([IssueWire.com](http://IssueWire.com))** - Dr. Meisamy is board-certified in Diagnostic Radiology by the American Board of Radiology (ABR). The ABR is one of 24 national medical specialty boards that make up the American Board of Medical Specialties (ABMS). The Board's commitments include: helping patients; providing information about the board certification process by which doctors are board certified; creating programs that assist doctors in staying current in their field and improving their practices; as well as increasing awareness of the importance of board certification and lifelong learning in assuring quality care.

Dr. Meisamy completed his undergraduate degree from the University of Texas at Austin and received his medical degree in 2001 from the University of Texas Medical Branch at Galveston. Dr. Meisamy left Texas to complete his internship in General Surgery at Hennepin County Medical Center in Minneapolis, MN. During that time and the subsequent two years, he also performed high field MRI and MR Spectroscopy research at the Center for Magnetic Resonance Research in the treatment and early diagnosis of breast cancer. After the completion of his breast cancer research, Dr. Meisamy earned back to back research awards from the Radiological Society of North America (RSNA) for his publications in the *Radiology Journal*. Dr. Meisamy went on to complete his residency in Diagnostic Radiology at SUNY Downstate Health Science Center in Brooklyn, New York in 2008. At the completion of his residency, Dr. Meisamy received an award for most outstanding achievement in academic research and educational lecture series. The following year, Dr. Meisamy completed an MRI fellowship with the University of Wisconsin in Madison where he also performed research on hepatic steatosis and published his findings in the *Radiology Journal* on quantification of hepatic steatosis using novel MRI techniques.

At present, Dr. Meisamy resides in Austin, Texas and is a Diagnostic Radiologist with River City Imaging Associates based out of San Antonio, TX, whose mission is to provide the highest quality care and service to patients using cutting-edge technology in diagnostic imaging. Dr. Meisamy is currently a member of the Radiological Society of North America, American College of Radiology, Texas Medical Association and the Travis County Medical Society. Dr. Meisamy also serves as an independent consultant on multiple research projects including cardiac MRI and research in the evaluation of radio frequency identification devices for their safety in MRI and its use for rapid identification of various surgical implants.

Diagnostic radiology refers to the field of medicine that uses non-invasive imaging scans to diagnose a patient. The tests and equipment used sometimes involve low doses of radiation to create highly detailed images of an area. Specializing in the field of diagnostic radiology, Dr. Sina Meisamy evaluates the results of medical images, such as CAT scans, MRIs, and X-rays, and uses them to treat health problems in his patients.
