

The New New York Hip Hop Singer MCM\$Mula Is Dominating the Stage with His Creations

Get yourself familiar to the revolutionary beats incorporated by MCM\$Mula in his recent launches. They are trending worldwide due to its intense hip-hop lyricism.

New York City, Dec 31, 1969 (Issuewire.com) - Among all the genres out there, nothing can come close to the popularity scales of the hip-hop genre. And though there are many hip-hop artists out there, no many artists' can create tracks worth remembering. But when it comes to **MCM\$Mula** evergreen tracks aren't an issue as each of his creation has been a hit since he started launching them to the public. Being a hard-working artist he had to put in twice the effort into creating a name for himself as compared to some of the established artists in the industry. Also known as McM_Mula to his close friends and family, the artist wanted to bring his stories in front of the world.

This [New York hip hop singer](#) wants to change the way this generation views hip-hop. Instead of talking about money and hip-hop he keeps the integrity of the genre intact by using it to bring the hardships the one often come across in their life. **MCM\$Mula** advised his fans to never give up despite what might come their way. Anyone listening to his tracks can realise that the themes of the tracks are taken from personal experiences. The soundscape in each of the track despite being hip-hop is kept low allowing the lyrics to pop up and grab the attention of the audience.

Though the collection of **MCM\$Mula** is huge there are some specific tracks that he is famous for such as Faded (CDQ)', McM Freestyle', 'Going Hard', ' [Gettin Money Fasho](#) ', 'Neva Change Up', '

Diamonds Cost A Check' and many more. Like the names of the composition has a story to tell to the audience. Just like the storytelling ambience each of his compositions has beats and bass covering the vocals of the artist throughout the tracks. **McM\$Mula** mainly connects with his audience through his social media accounts on [Instagram](#).
