

Voxel 3D Launches the 3D Model Making Studio in the UAE

VOXEL^{3D}

Dubai, Mar 18, 2019 (Issuewire.com) - Every company in the field of Real Estate developers, Architects and high profile establishments desires finest and beautiful architectural models that showcase their upcoming projects. While Dubai has an abundance of 3D model making firms, there are hardly any reliable options for dwellers of medium sized firms, who want great perfection, but in a limited time and budget. Recognizing this vacuum, Voxel 3D launched its 3D model studio; voxel3d.ae.

The service offers unmatched convenience to the businesses who can sit back and relax at office while the entire design and sourcing process is carried out in the Studio. No need for hunting around in multiple shops or long site meetings. Voxel 3D is an affordable [architectural model making service](#) with the charges being only a fraction of regular design fees costs. Their in house team of designers, each with experience ranging from 10-20 years, deliver exquisite 3D models and collaborate with clients to ensure satisfaction. the designs are created within client's specified budget range. Voxel 3D model making specifies from across a perfection of the models so that the right look and feel can be achieved while balancing out the costs. Voxel 3D is also great for business who want quick architectural models - in 2 weeks the entire project can be completed.

VOXEL 3D offers the Scaled Model Making and FDM (Fused Deposition Modeling) Technology 3D printing services for the global market. Like no other company, Voxel3D is mastering the interaction of 3D printing in a smart way alongside with traditional Model Making to bring down the costs for the valued customers. Additionally, [Voxel 3D](#) provides all essential elements for industrial 3D printing. System, material and process parameters are intelligently harmonized to ensure a reliable high quality of prototypes, usable parts and thus facilitating a decisive competitive edge. Furthermore customers benefit from deep technical expertise with an artistic approach for the global market needs.

Voxel 3D is a new addition to the Group of companies at Salim & Sons. Salim & Sons was established to consolidate the operations of its various divisions and streamline processes in order to enhance the exemplary products and services offered to their distinguished clients.

Considering that the concept is new to UAE, the organization rapidly established itself as a reliable and proficient company in the field of 3D printing and manufacturing and defining the growth of the 3D Printing sector in the U.A.E.
