

## World first fully feature Cryptopayment solution for any merchant size.

**Karat Merchant, risk free crypto payment option for the store.**

**London, Mar 7, 2019 ([IssueWire.com](http://IssueWire.com))** - The **Karat Merchant** payment system works like ApplePay or GogglePay but better because it allows the vendor to accept cryptocurrency and digital gold.

**Karat Merchant** can be operated on any Android, IOS device or POS terminal and will have a plug-in for online sellers, capable to handle three trillion in transactions per day.

**Karat Merchant** is unlike any other crypto payment solution already out there because the vendor can choose to convert the crypto or gold to fiat/cash instantly if they do not want to be affected by the volatility of the crypto market.

**Karat Merchat** does not affect the vendor's cash flow in any way and the fees are much lower than *Visa, MasterCard, Goggle, Apple etc.*
