**New York City, Apr 16, 2019 ([Issuewire.com](http://Issuewire.com))** - Dr. Anna Goodrich is a dentist currently practicing within her private practice, Goodrich Dental. There she holds expertise in general dentistry, oral surgery, dental implants, preventative care, cleanings, and teeth whitening.

Dr. Goodrich holds a Doctor of Dental Surgery Degree.

To stay up to date in her field, she remains a professional member of the American Dental Association. The American Dental Association (ADA) exists to power the profession of dentistry and to assist their members in advancing the overall oral health of their patients. They are strong advocates for our members – promoting the art and science of dentistry by supporting dental professionals through services like Find-a-Dentist, credentialing tools, Third Party Payer Concierge, contract review and much more. Their mission is to ensure all member dentists have what they need, when they need it and even before it is needed to succeed.

General dentists provide a wide array of services that are vital to patients' continued health. These services include: preventive services — helping to maintain good oral health by stopping disease before it takes hold in the mouth; restorative services — receiving timely and appropriate treatment when a problem is identified; as well as cosmetic services — performing a range of cosmetic procedures, such as teeth whitening, cosmetic bonding - even porcelain veneers. General dentists also address overall health concerns, as oral health is seen as the mirror of general health. In fact, some dental problems may reflect issues in other parts of the body and vice versa.
