

C. Stephen Woolums, MD, Urologist with Huntington Internal Medical Group (HIMG)

Get to know Urologist Dr. C. Stephen Woolums, who serves patients in Huntington, West Virginia.

New York City, Apr 19, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr. Woolums is an experienced urologist who specializes in the treatment of kidney stones, male and female incontinence, overactive bladder, pelvic prolapse, recurrent urinary tract infections, and other urological disorders. He is currently serving patients at Huntington Internal Medical Group (HIMG), which is a multi-specialty medical group that provides quality medical services to many patients and families throughout West Virginia, Ohio, and Kentucky.

Dr. Woolums is also the Medical Director of the Kidney Stone Program at Cabell Huntington Hospital, which was established to provide comprehensive diagnosis and treatment of kidney stones. Cabell Huntington Hospital is a regional, 303-bed academic medical center located in Huntington, West Virginia. The center cares for patients from more than 29 counties in West Virginia, eastern Kentucky, and southern Ohio. It is one of the ten largest general hospitals in West Virginia.

Dr. Woolums is board-certified in Urology by the American Board of Urology (ABU). The mission of the ABU is to act for the benefit of the public by establishing and maintaining standards of certification for urologists, as well as working with certified urologists to achieve lifelong learning and to insure the delivery of high quality, safe and ethical urologic care.

Dr. Woolums received his medical degree and completed his residency in urology at the University of Kentucky College of Medicine in Lexington, Kentucky.

Dr. Woolums is an experienced robotic surgeon who has performed many surgeries using the Da Vinci Surgical System. Having successfully completed the first UroLift procedure in West Virginia, he has been designated a UroLift Center of Excellence Physician.

Urology, also known as genitourinary surgery, is the branch of medicine that focuses on surgical and medical diseases of the male and female urinary-tract system and the male reproductive organs. Patients may be referred to a urologist, like Dr. Woolums, if their physician suspects they may need treatment for a condition relating to bladder, urethra, ureters, kidneys, and adrenal glands.
