

Dr. Melissa Caudle Announces a “Meet and Greet” Book Signing Event at the Sheraton Park Resort

A modern visionary and one of the newest authors to come from America, Dr. Melissa Caudle announces an extraordinary opportunity for fans in a “Meet and Greet” book signing event

New Orleans, Apr 8, 2019 (Issuewire.com) - American author Dr Melissa Caudle best known for her novels “[Never Stop Running](#),” and “[The Keystroke Killer](#),” announces an additional stop to her nationwide book signing tour. On April 17, 2019, a “Meet and Greet” book signing event will be held at the Sheraton Park Resort in Anaheim, California. “I’m excited about this additional event to meet with my fans,” she said. “I have known many of them for years and haven’t seen them in a long time,” Caudle said. “I can’t wait for this book signing.” Scheduled for 5:30 p.m. the event offers an opportunity to not only meet with Caudle but also an opportunity for fans to bring their copies of her books for her to autograph.”

Many of my readers purchased their book on Amazon, so I want to give them an opportunity to get them autographed,” Caudle said. “For those readers who purchased eBooks I will have bookmarks on hand that I will giveaway, and I will autograph them if someone wants. But, wait! I also will be giving away in a free raffle an opportunity to dine with me, advanced copies of my new book A.D.A.M., and other merchandise.”

Carol Michaels, an Absolute Author book reviewer said, "Caudle is a masterful author whose books are captivating and brilliantly written." That is high praise coming from an established reviewer with more than two decades of experience in the publishing field. "I have never witnessed an author whose books consistently launch as the number one new release on Amazon," Michaels said. "Her style of writing is breathtaking as she uses descriptive narration to bring a reader to a location and dialogue that is authentic. Everything about her writing has the hallmarks of a bestseller."

Caudle's first novel, "The Keystroke Killer: Transcendence" also opened with high rankings listed as the forty-fifth bestselling serial killer novel. This book follows Matthew Raymond a private detective, locked into a maze of deceit and deception uncovers the truth of Project Transcendence. A gripping page-turning thriller serial killer novel in the tradition of "The Silence of the Lambs," "Darkly Dreaming Dexter," and "Misery" that demands to be read. One part suspenseful thriller of 'who done it,' one part science fiction and one part sizzling erotica that makes "Fifty Shades of Grey" look PG, "The Keystroke Killer: Transcendence" is an impressive debut for Caudle as she weaves her characters into a dark and twisted journey to uncover a deranged and utterly immoral serial killer who controls a weapon of mass destruction. Set in the backdrops of political corruption and scandal in 2053 New Orleans, the novel follows Matthew a tortured private investigator as he tracks down a violent and dangerous serial killer who is destined to become one of the most genuinely chilling serial killers in fiction. Caudle said, "This book is not for the faint of heart. It is dark, deep and twisted." (BUY KSK NOW - <https://amzn.to/2ErQtgH>)

In Caudle's novel, "Never Stop Running," she combines a suspenseful thriller and the search for truth in regard to past lives and reincarnation in this mind-bending novel in the tradition of "*This Body: A Novel of Reincarnation*" by Laurel Doud, "*Journey of Souls*," by Michael Newton, and Past Lives, "*Many Masters*" by Brian L. Weiss. The result is a masterful original fiction novel as profound as it is awe inspiring. "*Never Stop Running*" is a page-turning thriller that begs to be read in a single sitting as this mental time travel spanning centuries and numerous past lives through regression hypnotherapy unfolds. On January 19, 2019, this novel opened as the #1 New Release on Amazon. BUY NSR NOW ON AMAZON - <https://amzn.to/2U47jYv>)

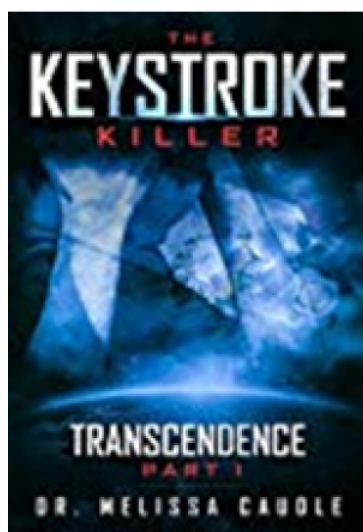

Caudle's third novel, "[A.D.A.M. The Beginning of New Life](#)," will launch June 1, 2019, and is available right now on Amazon for a pre-order. "This is one of my favourite novels to date," Caudle said. "This book is based from an actual scientific finding by Dr Felisa Wolfe-Simon, a NASA astrobiological researcher who discovered a microbe in Mono Lake, California that thrives off arsenic. **It was hailed in 2010 by the scientific community as the most "alien" life-form yet: bacteria that reportedly, and unprecedentedly, had rewritten the recipe for DNA. And, the secret ingredient was arsenic.**" "I took the liberty and jumped out of the box and created a story filled with adventure, a government cover-up and the evolvment of an alien lifeform," Caudle said. According to Caudle, this novel is in the tradition of the film "The Shape of Water," as the microbe evolves over the course of seven days. The microbe that Wolfe-Simon discovered has all of the basic DNA constructs as humans. The only difference is that the microbe replaced phosphorus with arsenic. In 2010 when Wolfe-Simon discovered the microbe, the scientific community was challenged with re-defining the definition of an alien lifeform. "What else might be out there?" Wolfe-Simon said in an NBC interview. "What else might we find?" (PRE-ORDER NOW - <https://amzn.to/2H2ik9O>)

This summer in an unexpected twist, Caudle will release "Scary Children's Campfire Stories," which she scribed for her seven grandchildren. "I have three daughters and every summer I go on three different camping trips with their families," Caudle said. "I am the story-teller around the campfire. Over the years, I have made-up dozens of campfire stories around the campfire. My oldest grandson encouraged me to write them down so other families could enjoy them."

With a myriad of novels, Caudle is not a one trick author who gives her readers excitement. Her novel that she is currently pinning is a sizzling romance novel called “Secret Romances: A Forbidden Thirst for Love.” Caudle said, “This book is my guilty pleasure. I love the characters and the excitement of romance.” Caudle, with the help of her youngest daughter, created the concept in 2005 after Hurricane Katrina. “At first, this was going to be a short story, but as the plot developed, I realized it was more than that. I put it on the back burner until now.” “Secret Romances: A Forbidden Thirst for Love,” debuts this fall.

ABOUT THE AUTHOR

Dr Melissa Caudle debuted her novel “Never Stop Running: A Novel on Reincarnation” as the #1 New Release on Amazon. She is best known for her book “The Keystroke Killer Transcendence,” a psychological thriller which took her to death row to interview serial killers. Her books have received five-starred reviews in Publishers Weekly, Booklist, Goodreads and on Amazon. She also writes non-fiction guidebooks for screenwriters on how to create one-pagers, write a logline, write a synopsis and more. She also has a series of adult colouring books called “Abstract Faces.” On April 1, 2019, Caudle released a reference book for authors, “How to Launch and Market a Book,” which is a step-by-step marketing plan for authors. Her blog, “Dr Mel’s Message,” has more than 125,000 followers where she writes about myriad interests. She enjoys the city life of New Orleans along with her husband Mike and their two sidekicks, a Tuxedo cat named Meow Mix and an American Gray Shorthair named Simone. She retired from a twenty-year career in education after writing a number one best seller on crisis management which took her worldwide as a keynote speaker to educational conferences and entered the film industry where she experimented with various occupations: production assistant, director’s assistant, travel coordinator, script supervisor, screenwriter, and director. However, she left that field in favour of pursuing her lifelong passion for writing. She does her best writing at her beach condo, on cruise ships, or in her sunny-patio-home office overlooking the paradise pool.
