

Eastern Suburbs Tutoring Centre Designs New Learning Program for Maths & English

Sydney, Apr 25, 2019 (Issuewire.com) - Earlier today, Eastern Suburbs based, Successful Learners Tutoring announced the beginning of its Term 2 Maths and English tutoring service. They are also proud to have developed individual learning programs to meet each student's needs. The centre has been in operation since early 2018. The main aim is to prepare students for exams, assignments, scholarship, selective and NAPLAN for ages from 4 - 18 (Years K - 12 and school readiness programs). But it does so, with a difference.

Sara Wunderwald, Founder and Head Tutor at Successful Learners Tutoring, says: "We wanted to try something new with our tutoring service. Anyone familiar with pre, primary and high school tutoring will probably have noticed how everyone else seems to work from predesigned programs. We treat each student as an individual, instead of putting them through cut and paste classes. Rather than expect students to fit a mould, we assess each student's needs and develop a unique program just for them.. Our tutors know that each student has a unique learning style and their own abilities. Children are expected to "fit in" at school but with a tutor, they can learn at their own pace and we will focus on improving their weaknesses and fostering their strengths."

So as a welcome breath of fresh air, Successful Learners Tutoring has instead put together a centre in

Sydney's Eastern Suburbs where the students actually love attending. At SL Tutoring, students actually enjoy the learning process. Once they stop feeling confused and frustrated, they find that learning can be fun. Students enjoy a sense of achievement when they start to understand topics they had previously found difficult.

Successful Learners Tutoring, Eastern Suburbs, works hard to make sure students enjoy the challenge of learning instead of considering it a "chore". SL Tutoring chose to make this move because they felt there was a gap in the market for individual tutoring programs, provided at a centre, away from home. This gives students and parents a place that is safe, focused on learning and is distraction free. At home tutoring means students can be easily distracted by the family pet, siblings, screens, games, hearing neighbourhood kids playing and more. Our centre provides a quiet and conducive environment designed to encourage and foster learning and success.

Additionally, the centre is located in Sydney's Eastern Suburbs with buses running from Sydney CBD, Bondi Junction, Randwick, La Perouse and more. The centre even has students from the Inner West suburbs around Newtown, Chippendale and Surry Hills using bus routes 372, M50 and 374, to name a few.

Sara Wunderwald also said "We want to give our students a place to go to improve while boosting confidence and school learning. We work hand in hand with the school curriculum to ensure students achieve their absolute best. With our new tutoring centre, they have a fresh new tutoring option. The students say they love coming here. The look on their faces when a lightbulb goes on and they suddenly understand a maths problem or something they didn't get before, is priceless. Trying something new is always a risk, but it's a risk we believe is worth taking. Because we understand this, we offer high school students their first lesson for free. We also give a free primary school assessment to give parents an idea of where their child is at school."

Successful Learners Tutoring has been in business for a year and a half, being established in February 2018. Since Day 1 it has always aimed to provide the absolute highest standards in high school and primary school tutoring.

The new tutoring centre launched in 2018. To find out more about the service and Successful Learners Tutoring, visit their website at: <https://www.sl tutoring.com.au>
