

IDZ Digital Private Limited Partners with AWE Learning on Launch of Platinum

Chester, Apr 4, 2019 ([Issuewire.com](http://www.Issuewire.com)) - AWE Acquisition, Inc. dba AWE Learning, is excited to announce its recent partnership with IDZ Digital Private Limited. Headquartered in Chester, Pennsylvania, AWE Learning is the leading provider of digital learning solutions for public libraries throughout the United States and Canada.

AWE Learning's newest products, Early Literacy Station™ Platinum, Bilingual Spanish Literacy Station Platinum, and AfterSchool Edge™ Platinum, each include more than 75 new software titles, spanning all STREAM subject areas (Science, Technology, Reading, Engineering, Arts, Math) for early learners. We are excited to offer IDZ Digital Private Limited's content on our Platinum workstations. In these software titles, kids will learn basic coding, math, science, geography, and more through exciting activities. Each activity has been designed carefully with the intention to develop a child's concentration, brain power, and early learning skills. These activities start off simple and get more challenging as you play.

Through AWE Learning's partnership with IDZ Digital Private Limited, their educational software titles will reach a larger audience and will positively impact early learners. IDZ Digital Private Limited educational activities help young learners to build school readiness skills, lead them to be successful in the classroom, and in their future. Aditya Mohatta, Director of IDZ Digital Private Limited, stated, "We have developed educational activities keeping young learners in mind. Our activities ensure that kids stay engaged and boost their skills through fun games. Kids grasp concepts better when they learn through play and have done exactly that in our activities."

AWE Learning President & CEO, Dr. Deborah B. Sorgi, said, "We are delighted to partner with IDZ Digital Private Limited. Companies like IDZ Digital Private Limited offer a variety of premier educational content for our target age group and markets. Learning doesn't only take place in the classroom. In today's global and connected world, critical skills are learned and mastered all day long. By addressing the foundational literacy skills of early learners, we're lowering the need for intervention programs. And we're giving every child access to unlimited opportunities to grow and connect. We have no doubt that young patrons everywhere will greatly enjoy interacting on these exciting new titles."
