Wilsonville, Apr 24, 2019 (Issuewire.com) - Relief Brand, the producer of cannabinoid infused consumer products, proudly announces the release of two varieties of Anti-anxiety Pet Drops: Bacon Flavor for Dogs and Salmon Flavor for Cats.

Each variety of Pet Drops comes in a 15mL bottle, includes a plastic dropper, and contains 150mg of Hemp isolate. Just as humans have come to find the inherent health benefits of this product, cannabidiol can also be helpful in alleviating what ails our furry loved ones.

Fortified with Relief Brand isolate, both products are also supplemented with Vitamin E and Lavender, each promoting healthy hair growth, easing anxiety, working as an antioxidant, and an anti-inflammatory.

Canine friends will love the natural bacon flavour these drops offer, featuring a delectable bacon aroma that will have them begging for more. Felines can be picky eaters but, with these specially formulated salmon drops, they can experience the taste of real salmon, while also receiving the full benefits of hemp.

Relief Brand Drops can be added to your pet's food or directly into their mouths, though we recommend consulting with a veterinarian before beginning usage to determine the right dosage based upon the size, weight, and how best to provide wellness for your pet.

In addition to these CBD Drops made for pets, Relief Brand is rolling out a wide array of wellness products, each providing a different method for the effective absorption. The company's products will not only be available through their website but will also be available soon in local and national retail outlets.

A percentage of overall sales are always donated to various organizations such as The Breast Cancer Research Foundation, The Animal Welfare Institute, and Operation Homefront. Relief Brand is honoured to be so involved in the community and looks to extend their products and knowledge to benefit others worldwide.

About Relief Brand

Founded in 2018 by a leading entrepreneur in the cannabis industry, creator of Select Strains, Clint Im. Relief Brand is one of five companies Clint Im owns and manages, currently based in Wilsonville, Oregon. Relief Brand aspires to not only provide the highest grade, hemp sourced products on the market but to also educate the general public by spreading knowledge about the positive health benefits of cannabinoids.
