

## Tracy Ragan, DeployHub CEO Elected to CDF Board

Tracy Ragan joins the Continuous Delivery Foundation as General Member Board Representative

**Santa Fe, Apr 29, 2019 ([Issuewire.com](http://Issuewire.com))** - DeployHub, visionaries in continuous deployment and microservice publishing, today announced that the Continuous Delivery Foundation Board (CDF) elected Tracy Ragan as the General Membership Representative.

"I'm honored to have the opportunity to serve the CDF General Membership as their Board Representative," said Tracy Ragan. "Continuous Delivery is currently going through a shift driven by containers, microservices, and Kubernetes. My goal is to further the functionality of CI/CD and to encourage new start-ups to become CDF General Members. After all, this is where some of the best new ideas will come from for solving Kubernetes CD Pipelines. We only need three additional General Members to add another Representative Board seat. I'm looking forward to having a co-representative to work with."

**About DeployHub**

DeployHub empowers development teams to catalog, publish, and deploy microservices and deployable objects across the organization, quickly, safely on agentless & hosted (SaaS) platform.

Sign up for DeployHub Team, the free, hosted version of DeployHub at [www.deployhub.com/free-continuous-deployment/](http://www.deployhub.com/free-continuous-deployment/)

DeployHub Team is based on the Ortelius open source project: [www.Ortelius.io](http://www.Ortelius.io)
