

All-New Alto Professional TS3S Series Now Shipping at DJkit

Britain's Leading DJ Hardware Retailer Welcomes the New TS3 Line of High-Powered Subwoofers

Newbury, May 14, 2019 (Issuewire.com) - The UK's leading name in high-quality, low-cost DJ hardware is proud to welcome one of the year's most hotly anticipated new lines. DJkit has today announced the official launch of the new Alto Professional TS3S Series, available at the UK's lowest prices with free shipping across the board.

Alto Professional has debuted an all-new family of high-performance subwoofers, designed to add a powerful low-end punch to any professional rig. Further extending the bass response of the company's enormously popular TS3 full-range speakers, the new TS312/315/318S family has earned rave reviews from critics worldwide.

For more information or to secure your order today, head over to DJkit's official TS3S Series product page at the following address:

Power, Punch, and Performance

"There are times when even the best sound systems need additional low-frequency output and "punch." For those situations, Alto Professional proudly offers the TS312/315/318S family of powered subwoofers. These subwoofers extend the bass response of virtually any full-range speaker, relieving that speaker of the difficult task of having to reproduce the low bass frequencies. This creates a system with stunning wide-range response characterized by dramatic, impactful low frequencies and effortless, undistorted mids and highs. The listening audience will hear everything with perfect clarity, from the lowest bass synth tones to the highest percussion bells and everything in between." - **Alto Professional**

Once again combining exceptional performance with unbeatable value for money, Alto Professional has launched a performance-quality collection of speakers at comprehensively affordable prices. DJkit's price-match guarantee ensures the lowest prices in the UK across the entire range, which are currently priced as follows:

- Alto TS312S - £379 or £749 Per Pair
- Alto TS315S - £469 or £929 Per Pair
- Alto TS318S - £549 or £1,089 Per Pair

DJkit is also offering the new speakers as part of more than a dozen Power Packs, complete with TS3 speakers, premium speaker stands and additional accessories. Prices from as low as £839 all-in. Head over to the following link for more information on the new Alto Professional TS3S Series and these incredible kits:

Superior Build Quality

"All three subwoofer models feature a rugged, long-excursion woofer mounted in a solidly-braced

ported enclosure, computer-optimized for powerful low-frequency performance. The enclosures themselves are made from a dense wood composite. This strong, resonant-free material has virtually perfect acoustic characteristics, which ensures that the subwoofers' output is always clear and impactful. Conventional enclosures with flex-prone thin metal or plastic walls actually rob the speaker of acoustic impact by dissipating the driver's energy as cabinet vibration. A sturdy, braced wood composite enclosure doesn't waste the driver's motion as cabinet resonance.” - Alto Professional

Packed with the latest technology and built to last, the new Alto Professional TS3S Series represents another huge step forward from this iconic DJ brand.

Once again, DJkit offers a full price-match guarantee to ensure the lowest UK prices, with free shipping available on every order. Order your Alto Professional TS3S Subwoofers online, or contact the team at DJkit to discuss flexible repayment plans if preferred.
