

Espire Infolabs and WSO2 Announce Global Partnership to Provide Agile Integration Solutions

Gurgaon, May 14, 2019 (Issuewire.com) - Espire Infolabs, a global technology services company, and WSO2, the world's leading open source integration vendor, today announced a global partnership to help businesses become agile, connected and efficient. The partnership with WSO2 is in line with Espire's commitment to creating a competitive edge for enterprises that are pursuing digital transformation by ensuring agility with a cross-enterprise approach.

The combination of the WSO2 Integration Agile Platform and Espire's Customer Engagement Hub (CEH) framework brings together applications, systems, data sources, and devices to help digitally driven organizations deliver meaningful customer experiences. Espire has been deploying highly robust, stable and scalable integration solutions, on-premises and in the cloud. Its approach involves rapidly integrating front and back office systems, powered by agile and DevOps practices to deliver complex data integration initiatives, business process management, and application integration initiatives.

The partnership follows the recognition of WSO2 by Forrester Research, Inc. as a Leader in The

Forrester Wave™: API Management Solutions, Q4 2018 report¹ published on October 29, 2018. In its evaluation of WSO2 API Manager, the report¹ states, "As the only fully open source solution in our Forrester Wave analysis, WSO2 provides good breadth across all evaluation criteria. Particular strengths include formal life-cycle management and non-REST APIs, both of which facilitate mature and disciplined enterprise API strategies."

Speaking about the partnership, Gagan Oberoi, the CEO and MD of Espire Infolabs said, "We are excited about this partnership with WSO2 and look forward to working together to change the dynamics of the customer's digital transformation journey by making it more intuitive, intelligent and delightful." Gagan adds, "Our joint offering with WSO2 is yet another milestone in the integration space and allows us to respond to the fundamental market needs. Organizations are under pressure to deliver exceptional digital experiences for their customers, employees, and partners. Our partnership with WSO2 is built upon its well-established agile platform and is tailored to drive meaningful content in a personalized, contextual and agile manner with seamless integration of legacy systems within enterprises."

"As a widely recognized expert in delivering state-of-the-art integration solutions, Espire Infolabs will be a valued partner in growing the community around our WSO2 Integration Agile Platform across the globe," said WSO2 COO Shevan Goonetilleke. "Through this partnership, we will strengthen our joint efforts in providing organizations the technologies, services, and processes to realize their digital transformation goals by becoming integration agile."
