

Johan Reyes, MD, Anesthesiologist & Interventional Pain Management Specialist with Relievus

Get to know Anesthesiologist & Interventional Pain Management Specialist Dr. Johan Reyes, who serves patients in Neptune City, New Jersey.

New York City, May 2, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr. Reyes is an anesthesiologist and interventional

pain management specialist who is currently serving patients at Relievus, located in Neptune City, New Jersey. At the practice, pain doctors and neurology specialists are devoted to the art of pain management: diagnosing, managing, and treating chronic pain conditions and neurological disorders, including disorders of the nervous system. The mission of Relievus is to go beyond treatment of pain by improving patients' quality of life and productivity.

Dr. Reyes is also affiliated with several hospitals in the New Jersey area, including Jersey Shore University Medical Center and Ocean Medical Center. His patients have excellent things to say about him, one stating "Dr. Reyes is a wonderful, caring and compassionate physician! I would recommend him to anyone who needs a pain management specialist."

Dr. Reyes is board-certified in anesthesiology and pain medicine by the American Board of Anesthesiology (ABA). The mission of the ABA is to advance the highest standards of the practice of anesthesiology. As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance the lifelong learning and exceptional patient care.

Dr. Reyes received his medical degree at Rutgers New Jersey Medical School, where he was awarded and admitted to the Arnold P. Gold Humanism Honor Society for "demonstrating excellence in clinical care, leadership, compassion, and dedication to service." Thereafter, he went on to complete his residency in anesthesiology at the same school, where he was nominated by the Faculty and his peers to serve as Chief Resident. He also completed his internship at Hofstra North Shore – Long Island Jewish in 2012, followed by his fellowship training in pain medicine (with a focus on interventional pain management) at Mount Sinai St. Luke's Hospital in 2016.

Anesthesiology, anesthesiology, anesthesia or anesthetics is the medical specialty concerned with the total perioperative care of patients before, during and after surgery. Interventional pain management or interventional pain medicine is a medical subspecialty that treats pain with invasive interventions such as facet joint injections, nerve blocks, neuroaugmentation, vertebroplasty, kyphoplasty, nucleoplasty, endoscopic discectomy, and implantable drug delivery systems. As an anesthesiologist and interventional pain management specialist, Dr. Reyes treats patients who suffer from chronic and acute pain, utilizing a multi-disciplinary approach to pain recovery. Some of the treatments he offers include epidurals, facet blocks, nerve blocks, and a variety of other spinal injections and procedures.
