

Michael Sabat, MSN, RN, Registered Nurse with Methodist Health System

Get to know Registered Nurse Michael Sabat, who serves patients in Dallas, Texas.

New York City, May 16, 2019 (Issuewire.com) - Michael is a registered nurse (RN) who is currently serving patients at Methodist Health System in Dallas, Texas. Methodist Health System is a renowned network of acute-care and teaching hospitals and medical centres in North Texas and Dallas. There, some of Michael's responsibilities include coordinating the daily operations of interventional radiology, coordinating the nursing care of a patient and/or a group of patients, providing anaesthetic assistance

(moderate sedation) to patients during IR procedures, as well as monitoring the recovery and discharge of patients after procedures - among others.

Michael is skilled in emergency medicine, advanced cardiac life support (ACLS), interventional radiology, critical care nursing, and healthcare management.

Michael received his Associate's Degree in Nursing (ADN) from South Texas College in 2006. He then went on to receive his Bachelor of Science in Nursing (BSN) from the University of Texas at Arlington in 2012, followed by his Master of Science in Nursing Leadership and Management from the Western Governors University in 2016.

Michael holds professional memberships with several organizations, including the American Nurses Association, the Texas Nurses Association, and the Sigma Theta Tau International Honor Society.

Michael originally became a nurse to help out his family in any way that he could. However, he quickly realized it was what he was meant to do and fell in love with the field and with taking care of patients.

Michael attributes his success to his determination, drive, ability to face conflicts head-on, as well as his 'never give up' attitude.

A registered nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfil a variety of job duties. In addition to the primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.

In his spare time, Michael enjoys mountain biking and reading fiction.
