

People Partners Announces Expansion in the UAE for its Employee Outsourcing Solutions

People Partners launches disruptive HR outsourcing solution, aimed at supporting the UAE's commitment to growth, innovation, and quality.

Dubai, May 6, 2019 (Issuewire.com) - The UAE economy is forecast to grow 3.8% over the next four years. With a strong history of innovation and opportunity creation, recent government reforms and an increasingly digital world are further changing business processes and outcomes.

Meeting the demand for flexibility and agility will play a major factor in driving forward the UAE Strategy for the Fourth Industrial Revolution, and achieving the #HAYYAKUM2020 Expo vision – ‘Connecting Minds, Creating the Future.’

People Partners today announced aggressive expansion plans with the launch of its one-stop, on-demand HR outsourcing solution, aimed at accelerating small, medium, and fortune 500 companies in the region.

“In a world that has embraced smart technology, where Millennials will make up nearly two-thirds of the workforce by 2025, the recruitment industry is ripe for disruption. People Partners is all about people helping people, providing freedom from recruitment, headcount, visa and training challenges,”

commented Melissa O'Neill, Director of Operations at People Partners. "That same agility allows us to power start-ups and accelerate SMEs, at the same time as being the go-to company for outsourcing for some of the leading local and international companies in the Middle East."

Hiring intentions in the region are on the rise; more than 90 percent of companies in real estate, construction, domestic services, civil service, market research, and media will be hiring in the coming year.

"With less time spent on admin and lower costs, we make it easier for our clients to innovate locally and compete globally," Ms. O'Neill added. "With exceptional experience in the UAE market combined with our own diverse, specialist teams, we bring our HR expertise on-site, so that our clients can focus on growth."

Based in Dubai, People Partners have been working in the UAE staffing space for over a decade, with a community of diverse, specialist teams who are all experts in their given fields.
