

An introduction to the Free Republic of Verdis, by the Verdisian Government.

An introduction about the Free Republic of Verdis provided by the Verdisian Government. Verdis is a self-proclaimed and serious state located between Croatia and Serbia constantly aiming for international recognition.

Badljevina, Jun 13, 2019 ([Issuewire.com](https://www.issuewire.com)) - **Verdis**, officially the **Free Republic of Verdis** is a self-proclaimed state located along the between Serbia and Croatia, near Liberland.

The Free Republic of Verdis was founded on 30th May 2019 by activist and politician, Daniel Jackson. Verdis classifies itself as a serious and legitimate state, and is constantly aiming for international recognition by UN member states.

The Verdisian Government has plans to inhabit the land claim once enough funding and promotion has been achieved, which the Verdisian Government has a list of solutions on doing so.

One of Verdis' many plans are to be as environmentally friendly and green as possible.

Verdis plans to be the greenest and most modern state in the world, representing itself as a role model for future and present nations to follow in on how the future of humanity can benefit by following Verdis' plans.

Verdis is an incredibly serious state aiming for recognition.
