

Geon – The 4th Fastest Growing dApp in the world, is launching its first IEO on June 25, 2019

Gibraltar, Jun 13, 2019 (Issuewire.com) - Geon Network Limited (“Geon”, “Geon Network” or “Company”), www.geon.network, is launching the first phase of its IEO program on June 25, 2019, with Nauticus (www.nauticus.io), Australia’s fastest growing regulated Cryptocurrency Exchange and Blockchain ecosystem, with active users in over 84 countries.

Launched to the public officially in October 2018, Geon allows users from around the world to explore over 1,500,000 interesting places and Geomine Geon Coins as part of their experience, becoming a bridge between crypto and the traditional world. For businesses, Geon is an outstanding marketing tool allowing locations to quickly and easily add Geomining to attract users to a retail location or tourist attraction.

Geon has quickly risen in the global app rankings, reaching, on May 13, 2019, 3rd Best dApp in the World on State of the dApps, 1st Google Play Trending Apps and a Nomination for the World Summit Award 2018.

Since migrating to the POA Network in February 2019, Geon has grown rapidly, reaching over 100,000 downloads and over 41,000 active users and has been awarded a grant by the POA Games Fund.

“Geon is an active platform with real users and revenue creating business partners. Our long-term vision is to deliver world leading products and services that enables people to explore what the world has to offer, reward them for their activities, and enable access to localized offers that are relevant to them,”

said Robert Radek, CEO Geon Network. “As a bridge between traditional and crypto world, we believe that Geon becomes your first-choice location-based companion dApp every time you leave home.”

The Geon Token sale will be hosted by Nauticus. In order to participate, please go to <https://nauticus.io/geon-ieo/> and follow the instructions to create an account. To learn more about the utility behind the Geon Token, the application use cases and the technology behind Geon Network, please refer to the [whitepaper](#) and Geon [official website](#).

About Geon Network – www.geon.network

Geon Network Ltd., a Gibraltar-based company, has launched the Geon App and is building the ecosystem around it, including the recently announced Geon Store. The app provides location-based incentives. It rewards users for physical presence and other activities at real-world locations — a tool that may be invaluable for businesses aiming to use new technologies to promote their brand and draw more customers to their venues. It reached a major milestone in May 2019 with over 100,000 user downloads, just over three months after the initial Beta release in March, 2019. The platform utilizes blockchain technology to enable trustless and censorship-free value and reward transfers. See the POA Network announcement for details.
