

Jeffrey Schroeder, DDS, Dentist with Bay Cosmetic Dentistry

Get to know Dentist Dr. Jeffrey Schroeder, who serves patients in Tampa, Florida.

New York City, Jun 25, 2019 (Issuewire.com) - Dr. Schroeder is a dentist who specializes in general, cosmetic, restorative, and family dentistry. He is currently serving patients' dental needs at his private dental practice - Bay Cosmetic Dentistry - in Tampa, Florida. He opened the practice in 2003 because he wanted an office where he could treat his patients the way that he would want to be treated. Bay Cosmetic Dentistry provides personalized comprehensive treatment planning, as well as uses restorative and cosmetic dentistry to help patients achieve optimal dental health. Each member of Dr. Schroeder's staff works diligently to treat each patient as an individual in order to provide a positive, customized experience.

Dr. Schroeder's passion for dentistry is fueled by incorporating new procedures such as implants, lumineers, veneers, and Invisalign. Cosmetics has long been his favorite part of dentistry and he has

been performing successful veneer cases for over 20 years.

Dr. Schroeder's practice philosophy is traditional medicine. He is proud to be an advocate for his patients in all aspects related to healthy lifestyles and general health. Dr. Schroeder earned his Doctor of Dental Surgery degree from Emory University School of Dentistry followed by his Bachelor of Science degree in biology from Florida State University, as well as his Associate of Arts degree from the University of Florida.

Dr. Schroeder is a member of the American Dental Association, the Florida Dental Association, the West Coast Dental Association, and the Hillsborough County Dental Association. In addition, Dr. Schroeder is a certified Invisalign® provider. Invisalign is a type of orthodontic treatment that helps to straighten teeth without the use of the typical metal braces.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists are responsible for diagnosing oral diseases, as well as promoting oral health and disease prevention. Additionally, they look for abnormalities within the mouth such as lumps, swelling or discoloration, and perform necessary diagnostic procedures to diagnose and treat these abnormalities.

Dr. Schroeder is an experienced fisherman and an avid art collector. He loves spending time on the water and procuring local art with a focus on tropical themes. He has incorporated both of these passions in his office.
