

Paul M. Rotunda, DMD, Dentist with Park Street Dental Associates

Get to know Dentist Dr. Paul M. Rotunda, who serves patients in Montclair, New Jersey.

Paul M. Rotunda, DMD

New York City, Jun 25, 2019 ([IssueWire.com](http://www.IssueWire.com)) - Dr. Rotunda is a professional dentist dedicated to excellence in cosmetic dentistry such as dental makeovers, diagnosis, and treatment.

Dr. Rotunda is currently serving patients' dental needs at his private dental practice - Park Street Dental Associates - in Montclair, New Jersey. There, he and his entire team are dedicated to providing patients with the personalized, gentle care that they deserve. Whether a patient requires a complete exam and cleaning, a full-mouth restoration or anything in between, Dr. Rotunda promises to provide them with exceptional care as he enhances the natural beauty of their smile. Some of the services that Park Street Dental Associates provides include cosmetic dentistry, cleanings & prevention, Invisalign, restorations, and more.

Dr. Rotunda opened this private practice over 30 years ago and has been committed to improving smiles and restoring even the most difficult conditions to bring his patients back to optimal health in a pain-free, relaxed environment.

Dr. Rotunda is the Clinical Vice President & Department Chairman of Dentistry and Oral & Maxillofacial Surgery at a regional trauma center. He has also been the Residency Program Director for over 20 years where young dentists are taught advanced techniques.

Dr. Rotunda was honored with the Patients' Choice Award in 2016. Patients' Choice recognition reflects the difference a particular physician has made in the lives of his/her patients. The honor is bestowed to physicians who have received near perfect scores as voted by patients. In addition, Dr. Rotunda is a certified Invisalign® provider. Invisalign is a type of orthodontic treatment that helps to straighten teeth without the use of the typical metal braces.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists are responsible for diagnosing oral diseases, as well as promoting oral health and disease prevention. Additionally, they look for abnormalities within the mouth such as lumps, swelling or discoloration, and perform necessary diagnostic procedures to diagnose and treat these abnormalities.

Dr. Rotunda's patients have excellent things to say about him, one stating "Dr Rotunda is an excellent dentist that cares so much for his patients. I am so very happy that I found a dentist that I can rely on. He is definitely worth the drive up to Montclair."
