

Versa Networks Partners with Distributor ASA Pacific Group For ASEAN

Singapore, Jun 3, 2019 (Issuewire.com) - Versa Networks, a top-notch provider of next-generation software-defined networking and security solutions announced its new partnership with distributor ACA Pacific Technology group for Association of Southeast Asian Nations. The main vision of entering into this partnership is to integrate IT Cloud IP Platform with ACA Pacific Technology group's network operations and analytics. Versa Networks has been founded by veterans of the network industry and today is known as one of the innovative vendors in the SD- Security and SD-WAN market. The USP of Versa is that it offers solutions that secure and simplifies the WAN/branch office network. As it is solely based on software, The IP Platform of Versa Networks delivers a broad wide array of abilities for constructing secure as well as agile enterprise networks.

The mission of Versa is to embark upon the key business and operational challenges that service providers and enterprises are facing with the conventional networking hardware and WANs. Also, its aim is to deliver total security and software-based networking. It is worth to mention that Versa is the innovator of Secure Cloud IP architecture that delivers integrated cloud networking and security services. Also, Versa's solutions have enabled enterprises and businesses to safely accept the challenges of digital transformations. Till date Versa has transacted over 150,000 software licenses through service providers, enterprises and partners globally. The organization is privately funded and held by Artis Ventures, Sequoia Capital, Verizon Ventures, Liberty Global Ventures, Comcast Ventures, etc.

In the evolving IT zone, what remains constant is the need for constantly updating with modern technology and ensure security, In this respect, Versa Network's partnership with ASA Pacific will undoubtedly benefit all the enterprises as it will simplify the distribution of specialized technology. ACA Pacific takes the pride to invest in providing channel partners with authentic value-added facilities and services to different sizes of businesses and organizations. The brand has been in the business since 1986 and has been serving the Asia-Pacific regions. It is responsible to integrate and select the 'Best-of-Breed' hardware and software to cater to the needs of the clients. ASA Pacific is partnered with industry-leading brands like Samsung, Digital Guardian, Kodac Alaris, BMC, Nuance, and many others.

ACA Pacific has not become a name at the forefront of the technology marketplace overnight. Over three decades of experience in the IT industry, it is associated with world-class IT developers and manufacturers. However, it is constantly improvising its distribution portfolios to introduce the most trending technology to the market. ACA Pacific has its offices in Malaysia, Singapore, Thailand, and Indonesia. The cutting-edge facilities powered with the unparallel customer service have made ACA Pacific chief IT suppliers in Asia.

It is expected that Versa Network's partnership with distributor ASA Pacific is going to change the game in the IT industry. A more fuss-free cloud-based network and security are no more impossible and enterprises are just a step away to meet the changes of the business dynamics.
