

Increase your NYC Home Office Potential with GiGstream Premium Internet Services

New York City, Jul 9, 2019 (Issuewire.com) - The 'gig economy' is one of the fastest growing trends in the job market. Employers are now hiring remote workers: Independent contractors, freelancer, [telecommuting](#), and flexible jobs to get jobs done faster, often with less expense than an in-house employee. Even high-level executives need to work away from the office more frequently than in the past. It is important to have a fast, reliable internet service to maintain a connection to the physical office.

What is GiGstream?

GiGstream is an internet service provider that provides a lightning fast internet connection. They have operated in the New York area since 2016. Today they provide internet services to residential and [business complexes in and around Manhattan](#).

What Services Does GiGstream Provide That Others Do Not?

GiGstream uses a [hybrid micro/fiber connection](#). This enhancement on a standard fiber connection enables users to experience an internet connection that exceeds the competition. GiGstream customers

can expect:

- **Low Latency** – A Micro/fiber connection clears internet traffic and minimizes the hops between the user and the internet, creating a super-fast internet experience.
- **Symmetry** –GiGstream offers four symmetric speed options; 150Mb x 150Mb, 400Mb x 400Mb, 1GiG x 1GiG, and 10GiG x 10GiG. **We are the only ISP to offer 10GiG service.**
- **Redundant Network** –If one path experiences an outage or a slowdown, the backup kicks in without you even knowing it occurred.
- **Concierge Services** –GiGstream has representatives that are dedicated to each property and are available 24/7.

GiGstream for Your NYC Home Office

We understand your job may require you to work from multiple or off-site locations; sometimes, a home office is your best option. To ensure you have the right connection that can handle your workload and maintain the security of your IT department demands, you need a reliable network that meets the demand of the growing work-from-home trend.

GiGstream has been providing internet services to the NYC area for over a decade. Whether you are the CEO of a global corporation, office staff needing to take some tasks home, or a freelancer [bidding for your next job](#), GiGstream residential services can make your home office your go-to location.
