

Introducing STICPAY, a global e-wallet focused on meeting each local market needs

London, Jul 22, 2019 ([IssueWire.com](https://www.issuewire.com)) - STICPAY is an international e-money service provider based in the UK and fronted by a young but experienced multi-national team. To date, STICPAY has users representing 160 countries and more than 355 registered merchants across numerous verticals. Top supported countries: Japan, China, S.Korea, Philippines, Thailand, Indonesia, Malaysia, Singapore, UK, France, other countries.

Competitive advantages:

1. Focus on local payment methods

Maintaining an individual approach to each market, STICPAY offers for deposits and withdrawals, transfer user-to-user or user-to-platform or vice versa, the following variety of payment methods: Local Bank Wire, Visa, Mastercard, International Bank Wire, UnionPay, STIC prepaid card, and crypto (BTC, ETH and LTC). Local Bank Wire options are offered in many Asian countries for withdrawal: https://www.sticpay.com/local_bankwire.

Also, STICPAY has 23 local currencies (+3 cryptocurrencies) and uses a USD base currency, which acts as the default currency. Skrill and NETELLER use EUR as their base currency. EUR has a higher value than USD. The client's balance will register as lower if converted to a currency that has a high value.

2. STIC prepaid card

Sticpay allows using STIC card for ATM withdrawals and offline purchases in over than 177 countries and regions worldwide (Europe, Asia and more). Prepaid cards by main competitors such as Skrill, Neteller, Ecopayz are available mostly in European Economic Area countries. STIC card offers lower withdrawal fees and the equal fees and limits for all STICPAY account levels users, compared with competitors.

3. Special features

STICPAY provides opportunities for users to earn commissions. The first one is a reward programme, SCOIN, rewarding members for actively using the services. SCOIN in the value of up to 20% of the fees charged will be rewarded. All users may then convert SCOIN to any fiat currency, which can then be used to complete transactions of all types. The second way is through the referral programme with an opportunity to earn 20% of the fees arising from the customers referred.

When it comes to daily usage, STICPAY boasts state of the art and user-friendly interface with multi-platform apps and API connections where the customers and merchants benefit from the frictionless transactions in all stages.
