**Pune, Jul 4, 2019 ([Issuewire.com](http://www.Issuewire.com))** - "Trends come and go and style evolves. It is important to have pieces of jewellery that are timeless and look chic despite ever-changing fashion." - Karen Elson.

This seems like the motto of [Ornate Jewels](http://www.OrnateJewels.com) in their latest ensemble of red hues. Rubies symbolize love and passion mostly because of the intense colour it possesses. Ruby is the birthstone of July, this rainy season – the season of romance, Ornate has decided to colour us in the hues of Ruby.

### **Material and manufacture:**

Ornate Jewels curates rubies in labs but they make sure that the shine and pride of the real rubies are precisely matched. The base of all the ruby is 925 sterling silver jewellery which is rhodium polished. This makes it look like white gold and gives the metal anti-tarnish properties and is hypo-allergic to skin. To augment more lustre in the designs, ruby is combined with AAA grade American Diamonds.

## **Designs:**

### **RUBY STAR PENDANT WITH CHAIN IN 925 SILVER**

I am sure the flower structures in pendants are pretty common and have been adapted by many.
