

Patryk Kaziow Business Guru Since The Age Of Six

Newark, Jul 24, 2019 ([IssueWire.com](https://www.issuewire.com)) - At the age of six years old Patryk Kaziow wasn't like all the other young boys and girls. What made Patryk different was his ability to save money at such an early age. Where most children would spend their hard earned chore coins on candy and pop, Patryk had bigger plans for his cash.

As Patryk Kaziow's saving grew he became intrigued with the stock market. Approaching the age of sixteen he fully submerged himself in stock investing in which the outcome paid out handsomely.

By the age of eighteen Patryk Kaziow was running his own car rental shop and earning substantial income. His dedication to maintain quality cars has made his company the go to location for exotics. Patryk Kaziow is now twenty years old with a larger fleet of cars and many years ahead of him.
