T10 UV Flying Insect Killer – Mosquito & Fly Trap

- Made in Korea
- Consumption: 22 Watt
- Effective Area: 0.02 – 0.03 Acre
- Material: ABS

DESCRIPTION:

Ideal for indoor as well as outdoor applications the Vector trap™ T10 trap works by luring the flying insects to the trap via UV light & CO₂ gas. Once the insects are in catching distance, an electric fan

sucks the insects into a mesh cage containing a glue board. This UV system is less noisy and cleaner than [Ultraviolet Mosquito Fly Zapper korea](#) conventional ultraviolet zappers. Our trap is ideal for restaurants, patio areas and greenhouses.

ADDITIONAL INFORMATION:

- WEIGHT: 4.40 lbs
- DIMENSIONS: 13.70 × 9.00 × 9.00 in
- BRANDS: Vector fog
- MPN: T10

T11 UV Flying Insect Killer – Ultraviolet Mosquito Fly Zapper

- For indoor use only.
- Ideal for home, office, shops, etc.

DESCRIPTION:

This compact electronic UV flying insect killer is ideal to kill mosquitos and flying insects in the home without the need for chemicals or sprays. It works by luring the flying insects to the trap via UV light and killed by an electrically charged inner grid. The flies then fall into a tray on the underside trap which can be easily cleaned.

ADDITIONAL INFORMATION:

- WEIGHT: 1.50 lbs
- DIMENSIONS: 3.40 × 3.40 × 9.70 in
- MPN: T11
- BRANDS: Vector fog

T30 Mosquito & Fly Trap

DESCRIPTION:

Ideal for indoor and outdoor applications, the Vector trap™ T30 heavy duty steel trap, works by luring flying insects to the trap via 2 powerful UV lights and CO2. Once the insects are in catching distance, a powerful electric fan sucks the insects into a mesh net. This low noise and low energy consumption trap are ideal for areas with a large number of flying insects such as cattle sheds, chicken farms, large greenhouses, outdoor restaurants and factories. [Mosquito Fogging Machine Korea](#)

ADDITIONAL INFORMATION:

- WEIGHT: 10.14 lbs
- DIMENSIONS: 20.1 × 12.20 × 12.2 in
- MPN: T30
- BRANDS: Vector fog
