

Rebranded as Kashyap Partners & Associates LLP

Kashyap & Kashyap has been rebranded as Kashyap Partners & Associates LLP

Gurgaon, Jul 2, 2019 (Issuewire.com) - After over a year and a half in the legal industry, we here at Kashyap & Kashyap are excited to announce the evolution of our firm. Beginning June 2019, our law firm Kashyap & Kashyap has been rebranded as *Kashyap Partners & Associates LLP*.

Our updated name and logo reflect our expansion over the last few years and our success as an international firm. What began as a practice primarily serving the American Immigration and Corporate clients a few years ago, now includes sophisticated disputes practice for corporate & commercial laws, intellectual property law, medical law, media law, business strategy, and entrepreneurship law in India and US. We are proud to highlight the service and expertise that makes *Kashyap Partners & Associates LLP* distinctive by refreshing our brand.

We understand that the legal field is new to re-branding. Traditional law firms believe in carrying the same name, same identity. We believe it is important to grow and evolve as nothing in the law, business or life remains stagnant. In the process of rebranding, we would like you to know how we have evolved and changed in these dynamic times, and we will continue to do so... this is the way we do business at *Kashyap Partners & Associates LLP*. We continue to offer customized, effective, innovative and efficient solutions to our clients, expeditiously, who are present in India and in other countries. We accomplish this by using our international experience and education combined with our legal expertise.

Through our days growing in the 'boutique bubble', we learned that clients nowadays are not looking for a brand name. They need direct access to experienced hands-on lawyers who trust their own judgment call and each other – experienced lawyers who will be there from the beginning till the end, handling both the standard problems and the surprises that come our way, with ease. We remain committed to working together and delivering on that promise at *Kashyap Partners & Associates LLP*.

Our goal from the beginning is to imbibe the need to achieve and maintain the highest quality and ethical standards in our professional work and personal care. This gives way to exceptional performance which results in success for our clients and ourselves. In service to our clients, we will continue to provide a meaningful level of continuity and stability. As founding partners, we will ensure that *Kashyap Partners & Associates LLP* continues to demonstrate the commitment to our clients, our values and each other,

every day.
