Jersey City, Jul 19, 2019 ([Issuewire.com](https://www.issuewire.com)) - Skyhook Capital, the Singapore based Fintech company focusing on the distribution of investment-grade digital assets for institutional investors, has entered into a partnership with Inwara – a premier market intelligence platform for digital assets.

As part of the collaboration, Inwara will incorporate their premium market data into Skyhook Capital's "Digital Assets Wealth Network" or DAWN™, to provide investors with cutting edge analytical tools that help navigate them to the right choice of "investment grade" digital assets suitable for their portfolio objectives.

Regarding the partnership, InWara CEO, Nirmal Lekshminarayanan said, "We're extremely happy to collaborate with Skyhook Capital and the DAWN™ initiative. Space needs less noise and more sound data-based decisions and this is a step in the right direction. Skyhook has all the right ingredients and we would love to share our mission as we look forward to a long partnership."

Said Lawrence Grincer, CEO of Skyhook Capital: "The signing of our partnership with Inwara forms an important milestone in the evolution of the DAWN™ ecosystem. Combining our blockchain and AI technology with high-quality data and research from Inwara, institutional investors will benefit from greater clarity in their decisions. As digital assets continue to expand the choice of alternative

investment opportunities into the future, we look forward to improving our service in collaboration with premier partners such as Inwara's.

About Skyhook Capital

Skyhook Capital is launching DAWN™, a platform for wealth service providers to access the global marketplace for digital assets and allocate these investments within a portfolio of traditional investment products. It connects institutions to "investment grade" digital assets from a network of suppliers across Asia, Europe and North America aggregated into a single product catalogue. DAWN™ provides the bridge to the future of Asset Management delivering in-depth market analysis, opportunity assessment, order execution and post-trade lifecycle management of digital assets.
