

Walking Tree Technologies Acquires Mumbai Based IT Company Techease Systems

Kalwakurthy, Jul 31, 2019 (Issuewire.com) - Walking Tree Technologies, a leading IT Solutions and Services company, announced that it has recently acquired Techease Systems, a Mumbai based IT Services company.

Techease Systems is one of the top company for providing Microsoft technology-focused solutions and they are one of the leading companies in providing digital content management systems for the business enterprises. Effective 1st June 2019, Techease's associates and customers were transitioned to Walking Tree. Walking Tree Technologies, a leading IT Solutions and Services company has acquired Techease Systems.

Techease Systems a certified Microsoft partner for Sharepoint, Azure and Power BI, an Episerver Solution Partner, is a leading provider of Microsoft technology-focused solutions who is providing digital content management systems for enterprises. Techease's associates and customers were transitioned to Walking Tree effective 1st June 2019.

Industry experts believe that this acquisition strengthens Walking Tree's present portfolio of niche existing UX Design, Application Development, and Data Management offerings, thus creating the best-

in-class complete solutions for medium to large enterprises.

According to Pradeep Lavania, Director and co-founder, Walking Tree, "Today, we are not only expanding our portfolio, we're also passionate to grow the Walking Tree family by adding to our team of experts who deliver innovative, industry-leading solutions for our customers,". He added "The addition of Techease will further boost our mission of delivering customized solutions through the powerful suite of business tools by Microsoft, including SharePoint, Power BI, and Azure. Walking Tree's commitment to service is a consistent priority as we expand our industry expertise and work to provide impactful software solutions."

Alok Ranjan, Director, and co-founder Walking Tree says "Techease is an ideal fit for Walking Tree as for the effective digital transformation we strive to provide the most comprehensive breadth of information management solutions in our industry." "We look forward towards serving our new Techease customers by building long-term relationships and working all together on their initiatives now and into the future, as we evolve our offerings. Strategic acquisitions enable us to align with the business needs of our customers and strengthen our competitive position while continuously innovating our solution offerings" he added.
