

1MD Reveals New Product Additions Targeting Digestive Health, Formulated With Clinically Proven Ingredients

Health Platform and Leading Supplement Brand Introduces GutMD, PrebioMD, BiomeMD and BiomeMD for Women.

Los Angeles, Aug 27, 2019 (Issuewire.com) - 1MD, formulator of scientifically backed, clinically studied health supplements and publisher of health, wellness, and fitness-related content has launched GutMD, PrebioMD, BiomeMD, and BiomeMD for Women formulas created, in partnership with leading gastroenterologist and medical nutritionist, Dr Doron David Kahana, to restore and maintain digestive system health. Available exclusively through 1MD.org, each product is uniquely crafted to provide targeted support to relieve specific digestive and gut-related issues.

“With every product innovation, we are committed to our mission of helping people feel and look their best,” says 1MD Founder Ziv Haklili. “As an industry leader in digestive health, we are thrilled to expand our product line with these groundbreaking, new digestive formulas that deliver clinically-proven results to meet our customer's health needs.”

1MD's new launches include products for both men and women:

GutMD:

- Revolutionary gut integrity formula combining L-glutamine, an essential amino acid that promotes the health and function of the digestive tract, with a ground-breaking prebiotic, human identical oligosaccharides (HMOs), clinically proven to aid in intestinal lining restoration and critical immune system health.

- Bioactive licorice root and prebiotic acacia tree fibre work to help soothe and strengthen the gut barrier, providing comprehensive digestive support.

PrebioMD:

- Broad-spectrum prebiotic formula offering the patented power of PreforPro® Prebiotic, clinically proven to support the growth of beneficial bacteria in both areas of the intestines, while crowding out harmful bacteria strains.

- Prebiotics, Xylo-oligosaccharides (XOS) and galacto-oligosaccharides (GOS), supports the body's mineral absorption, provides allergy relief, boosts immunity, and maximizes gut health.

BiomeMD

- The formula offers an unprecedented 62 billion CFUs from 15 robust and powerful probiotic strains, combined with human identical oligosaccharides (HMOs), a revolutionary, patented prebiotic.

- This breakthrough formula offers an essential combination of crucial probiotics plus prebiotics, scientifically proven to promote the health and function of the digestive tract, while aiding in intestinal lining restoration and critical immune system health, providing unparalleled, integrative digestive support.

BiomeMD for Women

- Specifically designed to provide targeted feminine care, offering a remarkable 62 billion CFUs and 16 robust probiotic strains.

- Combining scientifically proven *Lactobacillus rhamnosus* with multiple *Bifidobacterium* and *Lactobacillus* strains, and the patented prebiotic, human identical oligosaccharides (HMOs), this formula supports vaginal and urinary health, helps maintain yeast balance, promotes digestive health, and boosts immune system function.

GutMD, PrebioMD, BiomeMD, and BiomeMD for Women are backed by research and development by trusted physicians. 1MD gastroenterologist, Dr Kahana, asserts, "The new products for digestive health are the best on the market and I would recommend them to anyone looking to significantly improve their gut health and overall health."

All products are now available on 1MD.org and are Non-GMO, Vegan, and Preservative-Free. Consumers may also sign up for a subscription to any product.
