

Avail the best outsourced logistics services - Courtesy of Inov8ive

Sydney, Aug 2, 2019 (Issuewire.com) - Advancing a step further in supply chain management, Inov8ive Transport & Logistics, an Australia-based logistics solution provider, has set afoot the third-party logistics (3pl) and warehousing service domains. With a vision to simplify and make the outsourced logistics services convenient for the end-user, the company aspires to be the best [3pl & Warehousing Provider](#) in the entire Australian continent.

The third-party logistics and warehousing services that are being offered by Inov8ive Transport & Logistics encompass everything related to the management of one or more facets of procurement and fulfilment activities. From packaging to storing and warehousing to shipping, fulfilment and distribution of items, logistics had never been so easy, all thanks to Inov8ive Transport & Logistics. With Inov8ive's 3pl service, the primary benefit that you get to avail is cost savings. Besides, unlike a regular freight

forwarding service provider, Inov8ive takes full responsibility for the goods or services being shipped. In addition, the third-party logistics services that it provides the feature with the capacity to pick up, store and deliver your freight not just throughout Australia but worldwide too. All this makes Inov8ive a truly global logistics and warehousing service provider.

As far as the warehousing services of Inov8ive are concerned, it features a sprawling 4000 square metre of warehouse space where you can avail secure storage facilities that are capable of holding 7000 pallets with pick packing service, container access and international shipping options. What's more, the cost incurred is as low as less than \$1/-per day per pallet space. The warehouse space is conveniently located in the heart of Kingsgrove & Eastern Creek. Such a need arose with the movement of many logistics service provider companies further towards the west, which created the need for warehousing closer to the city.
